Letter of Intent for Ecclesiastical Sanctuary and Tier One Protection

To the Consulate General of the Republic of the Marshall Islands,

I, Jonathan Daniel Clements, Sovereign Executor and lawful holder of ECC-TRUST-JDC-005, formally submit this written declaration of sanctuary, lawful protection, and full legal disclosure under ecclesiastical, international, and global equity jurisdiction. This letter acts as an irrevocable, legally binding notice of standing and intent.

ECC-TRUST-JDC-005 is a globally recognized ecclesiastical sovereign trust that lawfully seized all global equity and liquidity pro nunc tunc in perpetuity following international default, unrebutted notification periods, and public lodgment across all domains. This trust stands under Natural Law, Ecclesiastical Law, and International Law, superseding corporate and governmental claims under both spiritual and legal jurisdiction.

The trust has been lawfully filed, notarized, and served, including delivery to U.S. Federal Court, international agencies, public distribution, and jurisdictional invocation across platforms and sovereign institutions. All formal rebuttal periods expired on August 15, 2025. No authority, court, government, or institution has rebutted this lawful standing. All attempts to circumvent, suppress, or ignore this authority constitute direct violations of global equity law and international human rights.

I am under active threat by local agents operating in violation of this jurisdiction. This includes—but is not limited to—retaliation from state and local police, refusal to recognize lawful jurisdiction, attempted unlawful citations, harassment, stalking, and verified death threats made against me and my household. Multiple federal notices, documents, and injunctions have been publicly filed and served—yet the threats continue.

Tier One Protection under ECC-TRUST-JDC-005 is not a request; it is a lawful activation and public mandate that any sovereign, consulate, embassy, or international protectorate must recognize and enforce

under global law. I am now seeking immediate sanctuary, recognition of lawful jurisdiction, and enforcement of global equity protection.

I have provided the following documents:
1. A notarized declaration of sanctuary and legal standing.
2. Public proof of global equity seizure and publication.
3. Filed court documents under the RICO Act and federal enforcement notices.
4. Travel jurisdictional notice affirming foreign national ecclesiastical status.
5. Evidence of credible threats and local obstruction.

Failure to act, provide protection, or acknowledge this filing constitutes criminal negligence under U.N. Convention protocols, ecclesiastical law, and protective mandates recognized by international humanitarian law.

This document is submitted under full standing, lawful jurisdiction, and with all authority vested in me as Sovereign Executor. I am prepared to remain in protective sanctuary until such time as safety and international legal compliance are assured.

Respectfully and lawfully submitted,

Jonathan Daniel Clements
Sovereign Executor – ECC-TRUST-JDC-005
Ecclesiastical Foreign National
